

TOWN AND COUNTY.

BREVITIES.

Stocks don't hold up worth a cent.

Mrs. Alt holds her regular dancing school at Reform Club this evening.

"Curly Bill" shook the Nevada dust from his feet last night, and left for the Bay.

J. H. Crossman, the mining expert, came in from Candelaria last night, and continued on to the Bay.

Trinity Church "cottage meeting" will be held this evening at the residence of Mrs. N. J. Roff, at 7 o'clock.

The Mexican Mining Company has levied an assessment of \$1 per share, delinquent in the Board March 13th.

The Journal is indebted to Senator Fair's Secretary for a copy of the report of the Department of Agriculture for 1881-82. Thanks.

Col. Jerry Moore, Independent member from the State at large, came in from Ruby Valley last night, and will besiege the Capital to-day.

Reno received a share of the snow storm last night. As the Journal went to press the ground was covered again, and flakes were falling thick and fast.

A big snow storm set in on the mountains yesterday morning, and a look westward is enough to convince a blind man that it has been snowing ever since.

Dr. Pierce's "Favorite Prescription," for all those weaknesses peculiar to women, is an unequalled remedy. Dispersing backache and "bearing-down" sensations yield to its strength-giving properties. By druggists.

Provided For.

The so-called Laughton bill has passed the Assembly and now only needs the approval of the Governor to become a law. Governor Adams will, we do not doubt, sign the bill. The bill makes the Lieutenant Governor ex-officio Adjutant General and State Librarian, and allows him a salary of \$2,700 per annum, which, with his allowance as President of the Senate swells the amount to \$3,000. The present Librarian is legislated out of office, and \$1,200 per year should therefore be deducted from the \$2,700, leaving \$1,500 as the amount allowed for services as Adjutant General.

Circulating Petitions.

Petitions are being circulated and very generally signed, requesting our representatives to use all honorable means to secure the passage of Senate bill No. 78, creating a Board of Reclamation, and appropriating \$100,000 to reclaim waste lands within the State, with the clause naming this county as a point to begin operations, stricken out. It is reported that Schoelling, Varian and Fish are against the bill, and by means of petitions it is thought they can be "braced up."

"Col. Gage in the Lobby."

The Carson Index now heads its Senate legislative report as follows: Senate met at 10 o'clock A. M. President C. E. Laughton in the chair.

Col. S. T. Gage in the lobby. Roll called. Quorum present. Prayer by chaplain.

Journal read and approved.

Another Big Suit.

Suit has been commenced in the Superior Court of Lassen county, California, against Alvaro Evans for \$20,000 damages, for defamation of character, the complainants being Allen Evans and wife, of Long Valley.

Fine Job Work.

The Journal job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

Mothers! Mothers!! Mothers!!!
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of **MRS. WINSLOW'S SOOTHING SYRUP**. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. **JANU-19-1883 W.F.W.**

Get the Original.

Dr. Pierce's "Pellets"—the original "Little Liver Pills" (sugar-coated)—cure sick and bilious headache, sour stomach, and bilious attacks. By druggists.

C. P. R. R. PROTEST.

Against the Passage of Measures Wherein the Workings of the Same Have a Tendency to Reduce Wages.

To the Senate and Assembly of the State of Nevada: We, your memorialists, residents of the State of Nevada, and citizens thereof, humbly beg leave to memorialize your Honorable bodies, and for cause of petition and memorial would respectfully represent:

We, your memorialists, are engaged in the business of transportation by rail, as employees of the Central Pacific Railroad Company, in various capacities thereon, in the State of Nevada; that as such employees we are paid wages for our labor by the said company; that bills are pending before your Honorable bodies providing for the reduction of the rates of transportation in this State; that if such bills become law, the rates of transportation will be greatly reduced and the earnings and profits of said company greatly diminished.

We would respectfully represent to your honorable bodies that the reduction of the revenues of any transportation agency necessarily enforces a more rigid economy in the cost of operating and maintaining such agency, and that in the aggregate of such cost, the item of labor is a most important factor.

We would further represent that all the elements of maintaining and operating cost have a fixed market value, except as to the element of labor; and that, therefore, the economies made necessary by any arbitrary and enforced reductions of the income of the company employing us will affect most heavily the item of labor, and result in a reduction of our wages. We would call your attention to the fact that the item of labor enters so largely into the cost of operating and maintaining a railroad system that, in an exact sense, it may be truthfully said that the legal regulation of the rates of transportation is by indirection a regulation of the wages of labor, and that, by the same just process of reasoning, a reduction of the rates of transportation works a direct and unavoidable reduction in the rate of wages paid to labor engaged in that employment. Against the passage of the measures proposed, with the consequent injury to us, and the inevitable reduction of our earnings, we most earnestly protest. We would further represent that, to be just to all citizens of this Commonwealth, whose interests are to be affected by the legal reductions proposed by the provisions of the bills under consideration, the legal regulation of the rates of transportation should extend to the regulation of all the elements entering into the cost of transportation.

The rates of transportation are correlative to the cost of maintaining and operating a transportation agency. Therefore the regulation of the one without a corresponding control of the other will destroy the proper adjustment of their relation to each other and result in the infliction of wrong and injustice upon the interests subordinate to and dependent upon the rates of transportation.

The legal reduction of rates proposed will force new adjustment of the cost of transportation to the revenues of the lines; and, since the element of labor is most directly under the control of the corporations owning the lines, and is the most flexible element entering into the aggregate cost of maintenance and operation, it will be first and most seriously influenced and injured.

We would further represent that while the rates of wages paid to us may be in many or most instances greater than those obtaining in the Eastern States, for like service, the cost of living in this State is greater, and that added to this, the discomforts and deprivations of living are such as are inseparable from life in a sparsely settled country.

The wages paid to us have been maintained without serious change or modification since the completion of the road.

We have not been harassed or annoyed by frequent changes in the rates of wages or the apprehension of such changes, and we desire to express our belief and opinion that the radical changes proposed by the legislation under consideration, with the consequent changes to follow by each succeeding Legislature, will inaugurate a new system affecting unfavorably our interests in this regard.

Fully believing, therefore, that the legislation proposed is clearly inimical to our interests as citizens of the Commonwealth, we again enter our solemn protest against the bills proposing the reduction of rates of transportation, and thereby reducing the value of our labor.

As in duty bound, your petitioners will ever pray.

This is signed by over 600 employees of the Central Pacific Railroad.

Hon. W. O. H. Martin, formerly State Senator from Ormsby county, but who has been in California for the past two years, came up from the Bay yesterday morning, and will remain in this section for a few days.

Johnson Grass vs. Evergreen Millet.

(Pacific Rural Press.)

Prof. Sanders, of Fresno county, through a communication in the Rural Press of recent date, represents that Johnson grass and evergreen Millet are separate species. Now, there are those in this county who have the evergreen millet obtained from Mr. Sanders' stock and the Johnson grass imported direct from Alabama, and they fail to discover, after careful cultivation and comparison, any difference. They are the same thing.

The evergreen millet, as we are informed by a gentleman who has probably given the subject more practical attention than any other man in the State, was first introduced into Alabama by a Mr. Johnson, from whom it obtained the name of "Johnson grass" in that locality, which has given rise to some confusion as to the identity of the evergreen millet, by which name it was more commonly known elsewhere.

As at the first introduction of alfalfa into the State (by Gov. Bigler, I believe), so now in regard to the new species of millet, great fears are entertained that it will speedily spread over all the farms near where it is first introduced.

Messrs. Paige & Morton were the largest cultivators of the millet in this county last year. Early in the season they put limited amounts of seed on sale at Tulare, which was soon disposed of; but having sold themselves short, they recently bought 2,500 lbs. that was brought to the State from Alabama.

Johnson made a fortune by the introduction of millet into Alabama, and others there who have turned their rice, cane and cotton fields to the grass and to the raising of stock, have found a more profitable industry.

It is found that the amount of seed required to the acre, as given by the Eastern seed catalogue, is more than double what is required here, which is quite an item of saving when the price is high as at present. Mostly the green millet in this country, has been propagated by planting the roots, which are about the size of sweet flag, which it much resembles, each joint being a setting. Planted two or three feet apart, they spread and close up the space between the second season. It is not known here whether frost will kill the young plant from the seed or not, but the root can be safely planted at any time. Furrows are plowed three to six inches deep, the settings dropped in and another furrow turned over them.

VINEX.

Tulare, Cal.

JAMES MORTON'S EXPERIENCE.

We find in the Visalia Delta a letter from Mr. James Morton, giving somewhat more fully some of the points made by our correspondent in regard to the alleged danger of the millet grass spreading over the country. Mr. Morton wrote as follows: You need not be afraid of its spreading all over the colony. You can cut a trench or small ditch, say 18 inches or 2 feet deep, around where you may plant it, and if not allowed to go to seed it will not spread outside of where you sow it; but if you let it ripen, and there is wind blowing, the wind might carry the seed beyond the limits sown; that is the only danger of spreading. Then if you wish to exterminate it, you can do so by ploughing it deep in the hot summer months, and then by cross plowing and harrowing you can kill it, but not otherwise.

I well remember when alfalfa was first introduced into California, when the prevailing opinion then was similar to what it is now of Arabia millet, namely, that whenever alfalfa was sown it would spread all over the entire country. Well, you know how much truth there was in that.

Now, as to the seed varying in looks, Mr. Cartmell and Mr. Broadhead got five pounds of evergreen millet seed at a cost of \$1.50 per pound two or three years ago, and the seed came in one package. They divided and sowed it one and a half miles apart, and what is singular, the seed from one place is white or whitish gray, and the other was black or about the same color as our seed, and the only reason I can assign for the difference is the difference in the soil in which they were sown.

Go on and sow your seed, and your neighbors need not be afraid of the millet spreading; on the contrary, when they see it growing next summer they will be getting some of it themselves.

A Varied Performance.

Many wonder how Parker's Ginger Tonic can perform such varied cures, thinking it essence of ginger, when in fact it is made from many valuable medicines which act beneficially on every diseased organ.

Satisfaction for Ten.

In our family of ten for over two years Parker's Ginger Tonic has cured headache, malaria and other complaints so satisfactorily that we are in excellent health and no expense for doctors or other medicines.—Chronicle.

Loss of hair and grayness, which often mar the prettiest face, are prevented by Parker's Hair Balsam.

The Age of Miracles

Is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lungs are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe diseases of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes even great eating ulcers to heal.

Even the cattle market is reported quiet now.

A New Hospital Needed.

The Enterprise relates and comments upon the following distressed condition of affairs in the State Capitol building:

The Legislature should not adjourn before doing something for the relief of Professor Young, the State Superintendent of Public Instruction. This gentleman is so ill at the present time that he has been obliged to take to his bed and place himself under the care of a physician. His meagre salary (\$2,400 a year), it is evident, will not enable him to provide himself with private apartments in Carson where he can be nursed in seclusion and with comfort; for he has converted his office in the Capitol, which is also used as a State Museum, into a sick chamber, where his prostrate form lies stripped and stretched upon a hospital cot. Professor Young, as a sick man, will naturally excite the sympathies of his friends as well as their hopes for his speedy convalescence, but his violation of the proprieties in making a public exhibition of himself as a patient will be also likely to engender disgust.

There are many strangers in Carson during the legislative session, including a number of ladies. The State's large cabinet of mineralogical specimens, on exhibition in the office of the Superintendent of Public Instruction, is an object of curiosity to visitors. It is not surprising, therefore, if they are somewhat startled upon entering the museum to find by the sense of smell, as well as of sight, that they are in the presence of the sick. We feel that it is a somewhat ungracious task to allude to this subject, but as there is no law to prevent State officers from converting their public offices into sick chambers, the only way to prevent the repetition of such an indelicacy is to publicly condemn Mr. Young's conduct. If his example is to be followed, it will be necessary, in the interest of decency, for the Legislature to make an appropriation for the erection of a public hospital for the relief of State officials stricken by sickness.

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not dislodge the stomach like cough syrups and balms, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always gives perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold 25c. at a box everywhere.

The Lakeview Examiner says it is rumored that a certain Goose lake divine while on a visit to Alturas recently, fell into the hands of that bold, bad institution known as E. Clampus Vitus and was duly initiated.

PARKER'S HAIR BALSAM

The best and most economical hair dressing, and made from materials that are beneficial to the hair and scalp. Parker's Hair Balsam is highly esteemed everywhere for its excellence and superior cleanliness.

It Never Fails to Restore the Youthful Color and Lustre to Gray or Faded Hair, is elegantly perfumed and is warranted to remove dandruff and itching of the scalp, & prevent falling of the hair, 50c. and \$1.00, at all dealers in drugs.

PARKER'S GINGER TONIC

A Superlative Health and Strength Restorer.

If you are a mechanic or farmer, worn out with overwork, or a mother run down by family or household duties, try Parker's Ginger Tonic.

If you are a lawyer, minister or business man exhausted by mental strain or anxious cares, do not take intoxicating stimulants, but use Parker's Ginger Tonic.

If you have Consumption, Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach, bowels, blood or nervous system, you can be cured by PARKER'S GINGER TONIC. It is the Greatest Blood Purifier and the Best and Surest Cough Cure Ever Used.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once; it will invigorate and build you up from the first dose and will never intoxicate. It has saved hundreds of lives; it may save yours.
